Organization of the American Association for Artificial Intelligence

1994 National Conference on Artificial Intelligence (AAAI-94)

Conference Chair
William Swartout, USC/Information Sciences Institute

Program Cochairs
Barbara Hayes-Roth, Stanford University
Richard E. Korf, University of California, Los Angeles

Associate Chair
Howard E. Shrobe, Massachusetts Institute of Technology

Challenge Committee Chair
Thomas L. Dean, Brown University

Art Exhibition Chair
Joseph Bates, Carnegie Mellon University

Machine Translation Showcase Committee
Jaime Carbonell, Carnegie Mellon University
Bonnie Dorr, University of Maryland
Eduard Hovy, University of Southern California

Robot Competition and Exhibition Chair
Reid Simmons, Carnegie Mellon University

Robot Laboratory Chair
Willie Lim, Lehman Brothers

Student Abstract Program Chair
Kristian Hammond, University of Chicago

Tutorial Program Chair
Devika Subramanian, Cornell University

Tutorial Program Cochair
Philip Klahr, Inference Corporation

Video Program Cochairs
John E. Laird, University of Michigan
Elliot Soloway, University of Michigan

Workshop Program Chair
Donald Perlis, University of Maryland

Program Committee
David W. Aha, Naval Research Laboratory
Bradley P. Allen, Inference Corporation
Richard Alterman, Brandeis University
Kevin D. Ashley, University of Pittsburgh
Christer Bäckström, Linköping University
Joseph Bates, Carnegie Mellon University
Richard K. Belew, University of California, San Diego
William P. Birmingham, University of Michigan
Mark Boddy, Honeywell Systems & Research Center
Peter Bonasso, The MITRE Corporation
Craig Boutilier, University of British Columbia
Hans Brunner, US West Advanced Technologies
Sandra Carberry, University of Pennsylvania
B. Chandrasekaran, Ohio State University & Stanford University
Eugene Charniak, Brown University
Susan Conry, Clarkson University
James Crawford, CIRL
Roger B. Dannenberg, Carnegie Mellon University
Adnan Darwiche, Rockwell International Science Center
Henry Davis, Wright State University
Luc De Raedt, Katholieke Universiteit Leuven
Thomas L. Dean, Brown University
Rina Dechter, University of California, Irvine
Johan De Kleer, Xerox Palo Alto Research Center
Nachum Dershowitz, University of Illinois at Urbana-Champaign
Oskar Dressler, Siemens AG
Mark Drummond, Recom Technologies & NASA Ames Research Center
Edmund Durfee, University of Michigan
Clark Elliott, DePaul University & Northwestern University
Susan Epstein, CUNY Hunter College New York
Oren Etzioni, University of Washington
Matthew Evett, Florida Atlantic University
Brian Falkenhainer, Xerox Design Practice & Technology
Adam Farquhar, Stanford University
James R. Firby, University of Chicago
Douglas Fisher, Vanderbilt University
Kenneth Forbus, Northwestern University/Institute for the Learning Sciences
Peter Friedland, NASA Ames Research Center
William A. Gale, AT&T Bell Laboratories
Erann Gat, JPL/California Institute of Technology
James Geller, New Jersey Institute of Technology
Matthew Ginsberg, University of Oregon
Piotr Gmytrasiewicz, University of California, Riverside
Andrew Golding, Mitsubishi Electric Research Laboratories
Moises Goldszmidt, Rockwell International Science Center
Georg Gottlob, Technische Universität Wien
John J. Grefenstette, Naval Research Laboratory
Adam J. Grove, NEC Research Institute
Joseph Halpern, IBM Almaden Research Center

Steve Hanks, University of Washington
Othar Hansson, Heuristicrats Research Inc. & University of California, Berkeley
James A. Hendler, University of Maryland
Ian Horswill, Massachusett Institute of Technology & AI Laboratory
Eric Horvitz, Microsoft Research
Douglas J. Howe, AT&T Bell Laboratories
Michael N. Huhns, MCC AI Laboratory
Seth Hutchinson, University of Illinois at Urbana-Champaign
Chung Hee Hwang, University of Rochester
Yumi Iwasaki, Stanford University
Randolph Jones, University of Michigan
Leo Joskowicz, IBM TJ Watson Research Center
Leslie Pack Kaelbling, Brown University
Avi Kak, Purdue University
Peter D. Karp, SRI International
Simon Kasif, Johns Hopkins University
Henry A. Kautz, AT&T Bell Laboratories
Richard M. Keller, NASA Ames Research Center
Hiroaki Kitano, Sony Computer Science Laboratory
Georg Klinker, Digital Equipment Corporation
Daphne Koller, University of California, Berkeley
Janet Kolodner, Georgia Institute of Technology
Kurt Konolige, SRI International
John R. Koza, Stanford University
Benjamin Kuipers, University of Texas at Austin
John Laird, University of Michigan
Gerhard Lakemeyer, University of Bonn
Amy Lansky, NASA Ames Research Center
David Leake, Indiana University
Wendy G. Lehnert, University of Massachusetts
Alon Levy, AT&T Bell Laboratories
Long-Ji Lin, Siemens Corp Research Inc
Marc Linster, Digital Equipment Corporation
Diane Litman, AT&T Bell Laboratories
Sridhar Mahadevan, University of South Florida
V.W. Marek, University of Kentucky
Matthew T. Mason, Carnegie Mellon University
David McAllester, Massachusetts Institute of Technology/AI Laboratory
Kathleen McCoy, University of Delaware
John McDermott, Digital Equipment Corporation
Sheila McIlraith, University of Toronto
David Miller, The MITRE Corporation
Steve Minton, NASA Ames Research Center
Thomas Mitchell, Carnegie Mellon University
Andrew Moore, Carnegie Mellon University
Mark A. Musen, Stanford University
Karen L. Myers, SRI International
Dana S. Nau, University of Maryland
P. Pandurang Nayak, NASA Ames Research Center
Nils Nilsson, Stanford University
Martha Palmer, University of Pennsylvania
Judea Pearl, University of California, Los Angeles
Fernando Pereira, AT&T Bell Laboratories
Dean Pomerleau, Carnegie Mellon University
Jean Ponce, University of Illinois at Urbana-Champaign
David Poole, University of British Columbia
Gregory Provan, Institute for Decisions Systems Research
Teodor Przymusinski, University of California, Riverside
Abhiram Ranade, University of California, Berkeley
Edwina L. Rissland, University of Massachusetts
Enrique Ruspini, SRI International
Stuart Russell, University of California, Berkeley
Jeffrey Schlimmer, Washington State University
Guus Schreiber, University of Amsterdam
Hinrich Schutze, Stanford University
Bart Selman, AT&T Bell Laboratories
Jude Shavlik, University of Wisconsin
Mark Shirley, Xerox Palo Alto Research Center
Yoav Shoham, Stanford University
Reid Simmons, Carnegie Mellon University
Munindar P. Singh, MCC
David E. Smith, Rockwell International
Wayne Snyder, Boston University
Lynn Andrea Stein, Massachusetts Institute of Technology & AI Laboratory
Mark E. Stickel, SRI International
David G. Stork, Ricoh California Research Center
Rudi Studer, Universität Karlsruhe
Devika Subramanian, Cornell University
Richard Sutton, GTE Laboratories Inc.
William Swartout, USC/Information Sciences Institute
Katia Sycara, Carnegie Mellon University
Prasad Tadepalli, Oregon State University
Austin Tate, University of Edinburgh
Gerry Tesauro, IBM Watson Research Laboratories
Richmond Thomason, University of Pittsburgh
Charles Thorpe, Carnegie Mellon University
David Throop, Boeing Missiles & Space
Paul Utgoff, University of Massachusetts
Peter van Beek, University of Alberta
Pascal Van Hentenryck, Brown University
Manuela Veloso, Carnegie Mellon University
David L. Waltz, NEC Research Institute, Inc.
Bonnie L. Webber, University of Pennsylvania
David E. Wilkins, SRI International
Randall Wilson, Sandia National Laboratories
Kent Wittenburg, Bell Communications Research
Gregg Yost, Digital Equipment Corporation
Hantao Zhang, University of Iowa
Shlomo Zilberstein, University of Massachusetts

Auxiliary Reviewers

Jürgen Angele, University of Karlsruhe
John Ash, Washington State University
Andrew Baker, University of Oregon
Anthony Barret, University of Washington
Howard Beck, AIAI, University of Edinburgh
Maria-Paola Bonacina, University of Iowa
Piero Bonatti, University of Technology Vienna
Claudia Boettcher, Fraunhofer Institute, Karlsruhe
Ronen Brafman, Stanford University
Gerhard Brewka, GMD (Germany)
Maurice Bruynooghe, Katholieke Universiteit Leuven

Joanna Bryson, Massachusetts Institute of Technology, AI Laboratory
Steven V. Chenoweth, AT&T Global Information Solutions
Lonnie Chrisman, Carnegie Mellon University
Paul Dagum, Rockwell Science Center
Keith S. Decker, University of Massachusetts
Alvaro Del Val, Stanford University
Marie des Jardins, SRI International
Christy Doran, University of Pennsylvania
Georg Dorffner, Austrian Research Institute for Artificial Intelligence
Brian Drabble, University of Edinburgh, AIAI
Tim Duncan, University of Edinburgh, AIAI
Thomas Eiter, University of Technology Vienna
Werner Emde, GMD (Germany)
Reinhard Enders, Siemens AG
Henrik Eriksson, Stanford University
David Etherington, AT&T Bell Laboratories
Dieter Fensel, University of Karlsruhe
Eugene Fink, Carnegie Mellon University
Hartmut Freitag, Siemens AG
Nir Friedman, Stanford University
Mitch Garnaat, Xerox Corporation
John H. Gennari, Stanford University
Keith Golden, University of Washington
Richard Goodwin, Carnegie Mellon University
Lloyd Greenwald, Brown University
Narendra K. Gupta, Siemens Corporate Research Inc.
Leonard Hermens, Washington State University
William Hill, Bellcore
John Josephson, Ohio State University
Herbert Kay, University of Texas
Jak Kirman, Brown University
Adrian Klein, Stanford University
Kevin Knight, USC/Information Sciences Institute
Sven Koenig, Carnegie Mellon University
Philip D. Laird, NASA Ames Research Center
Dieter Landes, University of Karlsruhe
Neal Lesh, University of Washington
Shieu-Hong Lin, Brown University
Christopher Lynch, Northeastern University
Daniel P. Miranker, University of Texas
Michael Montag, Siemens AG
Dimitri Naidich, University of Iowa
Susanne Neubert, University of Karlsruhe
Ann Nicholson, Brown University
Klaus Noekel, Siemens AG
Ron Parr, UC Berkeley
Peter Patel-Schneider, AT&T Bell Laboratories
Barak Pearlmutter, Siemens Corporate Research Inc
Scott Penberthy, University of Washington
Mark Peot, Stanford University
Lance Ramshaw, Institute for Research in Cognitive Science
Alan Rector, University of Manchester
Elisha Sacks, Princeton University
Kate Sanders, Brown University
Klaus Schild, German Research Center for AI (DFKI)
Franz Schmalhofer, German Research Center for AI (DFKI)
Robert Schrag, University of Texas
Grigori Schwarz, Stanford University
Richard Segal, University of Washington
Naveen Sharma, Xerox Corporation
B. Srinivas, University of Pennsylvania
Jussi Stader, AIAI, University of Edinburgh
Markus Stumptner, University of Technology Vienna
Milind Tambe, USC/Information Sciences Institute
Gabriel Taubin, IBM T.J. Watson Research Center
Peter Terpstra, University of Amsterdam
Samson W. Tu, Stanford University
Tomas E. Uribe, Stanford University
Gertjan van Heijst, University of Amsterdam
Maarten van Someren, University of Amsterdam
Henk Vandecasteele, Katholieke Universiteit Leuven
Patricia Wells, Washington State University
Monika Zickwolff, University of Darmstadt

AAAI Officials

President
Barbara Grosz, Harvard University

President-Elect
Randall Davis, Massachusetts Institute of Technology

Past President
Patrick J. Hayes, University of Illinois

Secretary-Treasurer
Norman R. Nielsen, SRI International

Councilors (through 1994)
Jaime Carbonell, Carnegie Mellon University
Paul Cohen, University of Massachusetts
Elaine Kant, Schlumberger Laboratory for Computer Science
Candace L. Sidner, Digital Equipment Corporation

Councilors (through 1995)
Johan de Kleer, Xerox Palo Alto Research Center
Benjamin Kuipers, University of Texas, Austin
Paul Rosenbloom, USC/Information Sciences Institute
Beverly Woolf, University of Massachusetts

Councilors (through 1996)
Thomas L. Dean, Brown University
Robert S. Engelmore, Stanford University
Peter Friedland, NASA Ames Research Laboratory
Ramesh Patil, USC/Information Sciences Institute

Standing Committees

Conference Chair
William Swartout, USC/Information Sciences Institute

Finance Chair
Norman R. Nielsen, SRI International

Publications Chair
Robert S. Engelmore, Stanford University

Scholarship Chair
Katia Sycara, Carnegie Mellon University

Symposium Chair
Lynn Andrea Stein, MIT AI Laboratory

Symposium Cochair
Bonnie E. Dorr, University of Maryland

Workshop Grants Chair
Candace L. Sidner, Digital Equipment Corporation

Workshop Grants Cochair
Beverly Woolf, University of Massachusetts

AI in Business Subgroup Liaison
Dan O'Leary, University of Southern California

AI and the Law Subgroup Liaison
Edwina Rissland, University of Massachusetts

AI in Manufacturing Subgroup Liaison
Karl Kempf, Intel Corporation

AI in Medicine Subgroup Liaison
Serdar Uckun, Stanford University
